Jl. Batusari Raya No 1, Kec. Palmerah, Jakarta barat, Jakarta

Technical-minded Web Developer and Administrator at HSBC Indonesia with a strong foundation in Computer Science (GPA 3.90/4.00). Deeply focused on system reliability and quality assurance through rigorous UAT-to-Production testing cycles and precise data integrity management. Proven expertise in designing logical system flows (Fuzzy Logic, IoT) and maintaining enterprise-grade technical documentation. Dedicated to applying analytical rigor and structural testing to enhance the accuracy and performance of AI-driven systems.

Work Experiences

HSBC Indonesia - Jakarta, Indonesia

Dec 2024 - Jun 2026

IWPB Web Administrator

IWPB HSBC Indonesia is the division focused on wealth management and personal banking services, offering financial planning, investment solutions, and worldwide banking access for individual clients.

- Developed and launched new website pages and delivered content updates based on Marketing team requests, ensuring brand consistency and enterprise standards.
- Quality Assurance & Email Deployment: Manage end-to-end email campaign lifecycles, ensuring 100% layout accuracy according to creative briefs and enterprise standards.
- Environment Testing (UAT to Production): Execute rigorous testing protocols by validating digital assets in UAT environments to identify bugs or rendering issues before promotion to Production.
- Contributed to website revamp initiatives, improving content structure, maintainability, and overall site quality.
- Internal Tool Development: Built internal tools to support daily web operations and cross-team workflows, improving efficiency and reducing manual processes.
- Actively collaborated with Marketing and related teams through regular coordination and progress discussions to align website development with business needs.
- Introduced and implemented CI/CD practices, improving deployment reliability, build consistency, and development efficiency.
- Supported structured website and content deployments, ensuring safe, controlled, and enterprise-grade releases.

Onanmedia Internasional Indonesia - Jakarta, Indonesia

Sep 2024 - Dec 2024

Fullstack Web

- RESTful API Development: Created efficient APIs using Express.js and TypeScript, ensuring scalability and maintainability.
- Web Creation & Integration: Developed responsive web applications from scratch using Next.js, React, and Tailwind CSS, delivering seamless API integration and optimized frontend performance with TypeScript.
- Real-time Features: Built a Socket.io server for real-time chat and notifications on web and mobile platforms.
- Full-stack Development: Worked across front-end and back-end, handling databases, APIs, and user interfaces.
- Web Maintenance: Maintained and optimized web applications for smooth performance and reliability.

Lab ICT Universitas Budi Luhur - Jakarta, Indonesia

Aug 2022 - Jul 2023

Supervisor Lab Assistant

- Serving as a supervisor for 30 lab assistants, ensuring their maintenance and care of the labs they oversee.
- Ensuring the lab operates in an organized and smooth manner.
- Training and serving as a mentor to the lab assistants.
- Ensuring a smooth internet connection in every lab.
- Maintaining lab servers, including storage servers and the main server, and deploying supporting lab websites on the main server.
- Creating materials and guides for lab assistants to enhance efficiency and effectiveness in the lab.

Education Level

Universitas Budi Luhur - Jakarta, Indonesia

Jun 2020 - Jul 2024

Bachelor of Computer Science, 3.90/4.00

- Graduated Magna Cum Laude, demonstrating exceptional academic performance and dedication to excellence.

Dicoding Academy - Bandung, Indonsia

Feb 2023 - Jul 2023

Certificate in Developing Front-End Web and Back-End

- Completed JavaScript-based Front-End development, acquiring technical skills to craft innovative solutions for complex problems.
- Participated in soft-skills training, focusing on effective communication, leadership, and teamwork, to facilitate efficient collaboration.
- Collaborated with a team on a Capstone Project, creating cutting-edge websites using JavaScript in the React.js and Express.js frameworks.

Skills, Achievements & Other Experience

- **Achievements** 📌 (2024): Journal Letter "Internet of Things Dalam Smart Vertical Garden Dengan Fuzzy Logic Method"
- **Achievements** 📌 (2024): Sertifikat Pencatatan Ciptaan
- **Achievements** 📌 (2023): Successfully graduated from "Studi Independen Kampus Merdeka pada platform Dicoding"
- **Achievements** 📌 (2021): "Sertifikasi Algoritma" By Universitas Budi Luhur
- **Modules Taken** 📌 (2023): "Belajar Membuat Aplikasi Web dengan React"
- **Modules Taken** 📌 (2023): "Belajar Membuat Aplikasi Back-End untuk Pemula"
- **Modules Taken** 📌 (2023): "Menjadi Front-End Web Developer Expert"
- **Projects** (2026): Level 9 Donation Tracker and bridge for game
- **Projects** 📌 (2023): CropPlanner Dicoding Capstone Project
- **Projects** (2024): Absensi Lab ICT Universitas Budi Luhur
- **Projects** (2023): Deteksi Trending Topic dengan BN-Grams dan Klusterisasi Berbasis Web pada Kompas.com
- **Projects** 📌 (2024): Thesis Project: "Smart Vertical Garden Based on IoT With Node JS Server and Websocket Protocol"
- **Soft Skills**: Teamwork : Problem Solving, Decision Making, Communication
- **Hard Skills**: IT Support : Troubleshooting
- **Hard Skills**: Development: C++, Arduino
- **Hard Skills**: Web Developer: React Js, Express Js, Node JS, NextJS, HTML, JavaScript, CSS, Typescript
- **Soft Skills**: Time Management : Goal Setting, Multitasking
